

Your Contribution is Your Voice

Our industry is facing many challenges that do not afford us the luxury of producing milk the way we have been used to. Input costs have risen drastically and other interest groups are weaving their propaganda into local governments causing others to rethink what is best for agriculture. This election year, you can help make a difference! There are legislators willing to work for us - the farmers - but they need our assistance. By contributing to the DBA Conduit Fund, you can be assured you are doing something that will aid the daunting situations dairy producers face.
